Coughs, Colds, Influenza, Croup, Hoarseness, Bronchilis, Pacumonia, Diseases of the Bowels arising from Cold, Incipient Consumption, and for the relief and (if at all possible) cure of Patients in advanced stages of the latter disease.

This celebrated preparation, like the Bitters, may be confidentially relied on. It is designed for a class of diseases more general and more fatal than any other to which the people of this country are subject—those springing from a "slight cold." That emment authority, Dr. Bell, says: from a "Sight coid." I matching the says:

"I will not say that Colds are to our inhabitants what the Plague and Yellow Fever are to those of other countries; but I can aver confidentially that they usher in disease of greater complicity and mortality than these latter.

A further proof of the terriable fatality of diseases re-Sulting from a "common cold" may be seen by a glance at the following statistics, taken from the records of the Board of Health of Philadelphia, confessedly one of the most healthy localities in the Union:—

1852. Total deaths in Philadelphia, 10,261 Died of Consumption, 1,912

1,912 Died of Consumption,
" " all other diseases (250 in number), 8,349 1853, Total deaths, Died of Consumption, " " ail other diseases 1854. Total deaths, Died of Consumption, " " all other diseases, -11.814

From these figures, it will be seen that nearly one fourth of the total deaths in the country are ca tion, to say nothing of the numerous other discases spring ing from a sught cold."

Do not trifle with your health; but if suffering from a cough, or cold on the lungs, buy a bottle of

HOOFLAND'S BALSAMIC CORDIAL,

And you may count on a cure. Thousands have done so,
and have certified to its wonderful effects.

Coughs sometimes proceed from a disordered or dyspeptic state of the stomach, in which case the German
Bitters should be used. In cases of weakness, or general debility of the system, resulting from a protracted
cough, the German Bitters will be found of great benefit
to those who use it.
